PROFILE

Aspiring front-end developer with a strong passion for building responsive, user-friendly, and high-performance web applications. Skilled in modern web development practices, I adapt quickly to new tools and frameworks, solve problems creatively, and continuously improve my craft. Eager to grow in a dynamic environment, I'm ready to take on any challenge across the web stack and contribute to meaningful, real-world projects.

EDUCATION

General English, CAM-ASEAN Institute, Phnom Penh
2019-2022

Bachelor Degree, Royal University Of Phnom Penh
2019-2023

EXPERIENCES

Web front-end developer , Bloc Delivery
2023-present

- Independently developed portfolios, landing pages, and admin portal dashboards using React Vue Nuxt js and Next.js. Collaborated with senior developers to ensure responsive design, optimize performance, and deliver seamless user experiences.
- Worked closely with UX/UI teams to implement visually appealing and intuitive interfaces. Coordinated with backend teams to ensure smooth data flow and proper API integration.
- Manage and maintain sourcecode using GitLab and GitHub, including version control, branching, merging, and team collaboration.
- Manage tasks and track project progress using Jira, including creating issues, assigning tasks, and monitoring workflows.

Web front-end developer , Freelancer
2024-present

- Freelance front-end developer contributing to Thortok, building scalable and fully responsive web applications using Nuxt 3 and state management with Pinia. Focused on delivering clean, maintainable code and seamless user experiences across all devices.

SKILLS

- **HTML5, CSS3, and JavaScript (ES6+)**
- **React , Vue , Next js , Nuxt js**
- **State Management (Context API, Pinia)**
- **Modern CSS Frameworks & Animation Libraries: Material UI, Tailwind CSS, Framer Motion, GSAP, and more.**
- **Basic SEO knowledge to optimize web content for better search engine visibility and performance.**
- **Proficient with Git, GitHub, and GitLab for effective collaboration and code management.**
- **Jira, Notion for task management and agile workflows.**
- **Skilled in deploying sites on Netlify with custom domain setup and DNS management.**
